

# Local Anesthesia From Head to Toe

## Cadaver Labs for Veterinarians and Technicians

November 9 & 10, 2019 - Algonquin College, Ottawa

### From the Neck Down

Saturday November 9, 2019

Control surgical and traumatic pain with best practices. Select from drug and drug combination options with confidence. Personalized instruction from board certified anesthesiologists to enhance your local anesthesia skills.

Techniques for everyday use in cats and dogs. Includes **sacro coccygeal blocks, incision-line infiltration, testicular blocks, soaker catheters** and more.

8am—4pm; 7 CE hours

### Eyes, Ears, Nose & Mouth

Sunday November 10, 2019

Become proficient in regional anesthesia techniques for head/mouth structures. Provide exceptional analgesia that will greatly enhance recovery after **dental, ophthalmic, auricular** and **nasal** procedures.

Learn to identify **key anatomical landmarks** and **needle placement techniques** for various nerve block options for dogs and cats.

8am—4pm; 7 CE hours

*"Every surgery is an opportunity to provide local anesthesia"*

AMERICAN COLLEGE OF  
VETERINARY ANESTHESIA  
AND ANALGESIA
